Re: Sablewoods Subdivision Monumentation

We have reviewed/researched the status of monumentation at the Sablewoods Subdivision. Research shows 15 monuments/drill holes remain to be set, and that 9 rebar/drill holes remain to be set. We have survey control throughout this Subdivision from both when we brought Subdivision through approval process and during the time Dieter & Gardner Inc. was working for the developer that built the infrastructure and many of the homes. We had also prepared in February 2006 as built plans for the road and drainage which need revisions. We will finalize these plans and print final Mylars.

For above professional services - \$7,450.00 (Seven thousand four hundred and fifty dollars and zero cents)

Peter C. Gardner
