I have been closely monitoring the work and feel that they have met the substantial completion point. I am comfortable with a release of all but the 10% guarantee period amount. For purposes of final release, I would consider the date to be September 1, 2012. As to the other bonds (i.e., SCWA and WPCA), I cannot speak for them.
Steve

Charlie:

Have your received a formal bond release request for Via Verde Ph 1?
